

# TRIPODI

Progettati in origine per la movimentazione delle scenografie nei teatri, i tripodì Tellure Rôta sono ideali per il **trasporto di carichi pesanti in spazi ristretti**, con sforzo ridotto da parte dell'operatore e riduzione delle vibrazioni e della rumorosità durante l'impiego. L'utilizzo di ruote in poliuretano TR e TR-Roll garantisce lunga durata del prodotto e riduzione dello spunto iniziale e dello sforzo durante la movimentazione.

## TRIPODI CON RUOTE SERIE 62AL

Rivestimento in poliuretano elastico TR-Roll e nucleo in alluminio
